- Advanced Network Operations Certificate
- Network Essentials Certificate
- Operating Systems Basics

EXPERIENCE

SALES MANAGER, FAMILY BUSINESS

AUGUST 2021-PRESENT

I am helping my family as sales and IT manager of our small shop opened in 2018. I have managed to increase the total sales from 100\$ per day to 250\$ per day and the monthly profits have dramatically increased. Although it is a small shop, it is a very good indication that business can extend into a more profitable business adventure.
